## Who am I?

I am a manager here at Xpertise and oversee the growing Public-Sector team. We specialise in searching for talented Business Transformation, Project Delivery & PMO professionals to be placed across Central and Local Government, for both contract and permanent appointments.

In my spare time I love to play Rugby, watch sport— and anything in the countryside with my wife and dog.

## What makes me different?

I have worked within the public sector team for the last 4 years. In this time, I have built an extensive network of candidates and clients within Central & Local Government throughout the UK. I drive my team on Xpertise's ethos of “**Disrupt by caring**” - We do this by going back to basics and aim to meet more candidates and clients face to face than anyone else. My team's focus is always on building long-term relationships and living by Xpertise's core values of **Respect, Knowledge, Honesty** and **Drive**.

## Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Project Delivery and PMO professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to 'disrupt by caring'.

RECRUITMENT**

## Don't just take my word for it...

*"I worked with Andy when he was looking to fill a role with a major public sector client. Andy / Xpertise recruitment are a model of how the industry should work. He had clearly understood the needs of the client & made sure I was prepared for the first engagement with the client. Equally he worked with me to address any concerns I had and ensured that they were resolved to the satisfaction of all. I do not have the slightest hesitation recommending Andy / Xpertise to anyone looking for a well-supported engagement"*

Digital Delivery Manager – NHS Digital

*"Xpertise were the only consultancy that took the time to understand our business, objectives, and culture before vetting and presenting candidates. This small investment in time at the beginning of the process saved a huge amount of time that I would have wasted interviewing unsuitable candidates, and really helped set the tone for a long-lasting business relationship which I am delighted has been so mutually beneficial over the years."*

## Some of the clients I work with...
