Who am I?

I am a manager here at Xpertise and oversee the growing Project Delivery recruitment team. We specialise in searching for talented Project Delivery & PMO professionals to be placed across a variety of sectors in the East & West Midlands, both contract and permanent appointments.

In my spare time I love to play tennis, get out on the road bike – anything in the countryside with my family and working cocker spaniel, Lilly.

What makes me different?

Being credible in this field, is being knowledgeable in my opinion. I encourage my team to attend the agile meet up events to learn how the different positions fit within the project delivery field. As well as being at the forefront of new market trends. We are consultants, advising people on their careers and changing that mindset that we “recruiters” just “fill jobs”. All my team is active in the community, meeting people to really get to know them as a person, to bring that personable approach in everything we do.

Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Project Delivery and PMO professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to ‘disrupt by caring’.

Our Xpertise Practices...

Don't just take my word for it...

Phil has an excellent network of contacts and knowledge of the recruitment market throughout the East and West Midlands. What impressed me most was the way that he built and maintained a relationship with me, keeping me updated with potential assignments, long before the opportunity to be placed through him came about. This is what the recruiter/contractor dynamic should always look like.

Michael Simm, Contract Business Analyst

I worked with Phil to secure my first contract. He was tremendously supportive at a time when I was new to contracting - not only in securing my first contract but also establishing me in the marketplace. I always found Phil extremely professional, personable and always willing to help. His vast knowledge of the Midlands market and significant connections across all sectors is extremely powerful, and I very much look forward to working with Phil and the team at Xpertise in the future.

David Hewitt, Project Manager
