Who am I?

I work for Xpertise based in our Derby office and head up the Midlands QA & Software Testing practice. I specialise in searching for talented QA & Software Testing professionals on all levels to be placed across a variety of sectors, both permanent and contract appointments.

In my spare time I love to play football, go to the gym and see as much live music as I can. Growing up on a farm means I get out in the countryside whenever I can with friends and family.

What makes me different?

Coming from a Personal Training background, Recruitment was a natural transition for me. It was all about building long-term relationships based on respect, honesty, support and guidance, and getting results. My approach hasn't changed.

I've been immersed in the QA & Software testing market for 3 years now. In this time, I've built an extensive network and reputation amongst test professionals. I'm also a proud sponsor of the Midlands Test Meetup (#MidsTest) which gives me knowledge and credibility in my market.

Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Software Testing professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to 'disrupt by caring'.

Our Xpertise Practices...

RECRUITMENT**

Don't just take my word for it...

"Richard is a breath of fresh air in the recruitment space. He is a consummate professional and a very likeable chap. Not many recruiters buy me a coffee, wish me luck for interviews not arranged by them and congratulate me when those interviews result in offers. Richard is an absolute credit to Xpertise and I very much hope I can work with him again in the future whenever I look for my next opportunity"

Gary Mellor - CloudCall

"Excellent service Richard helped me with interview questions and listened to the type of job I was after it all payed off by getting the first job I went for with Xpertise"

Wayne Rutter - Aconex
