## Who am I?

I am a recruitment consultant and spend all day speaking to software development enthusiasts across the Midlands area. I search for talented Junior, Mid – level, Senior, Lead and Managerial Developers to be placed across a variety of sectors in the East & West Midlands, both permanent and contract appointments.

The two things I enjoy the most outside of work is playing Tennis and telling a great “dad joke”. I am fluent in English and German and love travelling (ideally to watch football).

## What makes me different?

I studied Human Resource Management at University because I enjoy working with people and wanted to have a positive impact on their career. The reason I work for Xpertise is because everyone believes in doing recruitment the “right” way, establishing long lasting relationships and being a genuine, honest consultant and an expert in your market.

**Fact which makes me different:** I have recruited IT professionals in 4 countries in 2 different languages.

## Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Software Development professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to ‘disrupt by caring’.

## Our Xpertise Practices...

- [.NET, C#, ASP.NET,MVC, VB.NET](#)
- [JavaScript, Angular, HTML, CSS](#)
- [React, Node.js](#)

## Don't just take my word for it...

*"Working with Philip on finding my latest role has been an absolute delight. As well as being professional & on the ball with following up and chasing down answers to my questions, Philip is also a genuinely amicable person who seems to care deeply about making sure he matches up the right people with the roles he's recruiting for -*

*At no point did I feel pushed into making any decisions I wasn't comfortable with and I've ended up with a great offer for a role I am very excited about. Courteous, super friendly and clearly dedicated to his work. Fully recommended."*
