01332 947921

Who am I?

I am a recruitment consultant here at Xpertise and I work in the Public Sector team. We specialise in searching for talented Digital/IT professionals including Project Delivery & Student Records Management System specialists to be placed across Higher Education, Central and Local Government - for both contract and permanent appointments.

What makes me different?

With my experience placing contractors into the public sector I have extensive understanding of the processes from the on-boarding, through to the pre-employment / DBS checks which enables me to manage candidates throughout the whole process.

I am also very active within the community, meeting people to get to know them as a person to bring that personable approach in everything I do.

Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Digital/IT professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to 'disrupt by caring'.

Our Xpertise Practices...

- [Public Sector](#) – Higher Education, Central Government and Local Government

RECRUITMENT**

Don't just take my word for it...

"I reached out to Olly whilst looking for a new position, it was refreshing that there was a consultant who demonstrated in depth knowledge of his market having previously had bad experiences with other agencies. I would definitely work with Olly again"

"Xpertise were the only consultancy that took the time to understand our business, objectives, and culture before vetting and presenting candidates. This small investment in time at the beginning of the process saved a huge amount of time that I would have wasted interviewing unsuitable candidates, and really helped set the tone for a long-lasting business relationship which I am delighted has been so mutually beneficial over the years."
