Who am I?

I am a specialist Infrastructure and Cloud Recruitment Consultant based in Derby. I recruit for both permanent and contract opportunities across the Midlands. I have 2 years' experience recruiting for various sectors, industries and all levels of candidates. During my career with Xpertise, I have developed and maintained a strong network of high calibre candidates and built relationships with clients and Hiring Managers. Outside of work, I love to pamper and get dolled up but also love a good long walk in the countryside with my 3 pooches. I really enjoy travelling and visiting new places, after all who doesn't love a holiday?!

What makes me different?

I am not in Recruitment for the quick win... I don't just recruit candidates and fill roles. I consult both client and candidate, I ensure the role is right for the candidate and the candidate is right for the role. In recruitment, there are many ups and downs everyday but it's what makes it exciting, rewarding and most of all challenging. Nothing is more rewarding than recruiting a candidate for a client, and they work their way up and remember you throughout their entire journey. Likewise, when a client continues to come back to you because of their positive experience. Being trusted by both client and candidate, and ensuring a positive experience is of the utmost importance.

Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find Infrastructure & Cloud professionals across the UK. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to 'disrupt by caring'.

Our Xpertise Practices...

- [Infrastructure & Cloud](#)
- [Project Delivery](#)
- [Software Developers](#)
- [NHS & Central Government](#)
- [QA & Testing](#)

I have Xpertise in...

Searching for talented Infrastructure & Technology professionals to be placed across a variety of sectors in the Midlands, both contract and permanent appointments, such as:

- Head of IT/IT Manager
- Infrastructure Engineers/Managers
- Cloud and VMware Engineers
- Service Desk Managers
- 1st/2nd/3rd Line Support
- Application Support
- Infrastructure Architects

RECRUITMENT**

Don't just take my word for it...

10/10, A+, Would recommend! Stacey and the team at Xpertise have worked with us more like a trusted partner than a recruitment agency, working with us to quickly understand our business and the talent we were looking for. Most impressively they react to the changing needs and demands of our growing business. There are loads of recruitment agencies that will tell you how good they are, and what awards they've won, Stacey and the team deliver on the promises. The quality and background of the candidates they have sourced has been exactly what we needed (even when we didn't specifically ask for it!).
