Who am I?

Hi, I'm Leo and I've been in the recruitment industry for 7 years specialising in placing senior candidates across various industries and locations across the world. I head up and lead the development of the London office looking after teams working in our core practices focused on London & M4 Corridor. I aim to create a consultative approach towards our clients and candidates, so we separate ourselves from others and become the market leaders.

What makes me different?

I studied Architecture at University and finished my part one qualification, it's interesting now I find myself working the I.T Architecture practice.

I have global experience having worked with clients all over the world and helped them in the development of their teams in hiring key personnel. My clients were from countries such as Venezuela, Germany, Finland, Egypt, USA and China. This has taught me a lot about different cultures and working environments.

Why Xpertise Recruitment?

Xpertise Recruitment provide hard to find IT Architecture & Senior IT Appointments across London. We help candidates achieve their career ambitions, and provide advice, coaching and training to those who need support. We believe we offer something different from other agencies, bringing the human touch into recruitment by concentrating on building lasting relationships with candidates and clients, rather than making a quick sale. Our goal is to 'disrupt by caring'.

Our Xpertise Practices...

- [Cloud & DevOps](#)
- [IT Architecture](#)
- [QA & Testing](#)
- [Product](#)
- [Project Delivery](#)
- [Senior Appointments](#)
- [Software Engineering](#)

Don't just take my word for it...

"It has been excellent working with you and I hope we get chance to do so again.

I would like to let you know that from all the agencies that I hear of, Xpertise always comes out top. I have never heard a bad word said, so thanks for all your help!"

Solutions Architect, London
